REPORT OF MOODY PARK COMMISSION FOR 1927

The appropriation made by the last annual town meeting has enabled the commission to take good care of the Park during the past season and to keep the driveways in repair.

In addition there has been added to the equipment, several things which the growing use of the Park by the public has created a need for. A second picnic ground has been cleared and fitted up on the level area west of the drive and southwest of the first one. Additional swings for the use of the children have been provided and a small tool house constructed in which the tools used about the Park can be left in place of safety. Town water has been piped into the picnic ground thus providing ample supply of pure drinking water for people resorting to the place.

While the commission has no definite figure of the number making use of the Park's facilities in various ways, it is known to be large and on the increase. The Sullivan Machinery Co. employees had a field day at the Park last summer when several thousand people were present. It is believed that the growing use of the Park justifies a continuance of the usual appropriation for maintenance and improvements.

ALBERT B. KELLOGG, *Treasurer*

Claremont, N. H., Feb. 27, 1928.

To the Citizens of Claremont, N. H.:

The activities at Monadnock and Barnes Parks were continued last year under the same general policies that have been in use for several years.

The playground for children was in operation at Monadnock Park with a total attendance for the summer of 9,886 children under supervision of Miss Margaret Keefe, while at Barnes Park about 4,000 children took part in the daily programs during the season under supervision of Miss Frances Sanborn.

On August 1st, a children's circus was staged with performances both afternoon and evening including a street parade, with the children from both playgrounds participating. In spite of rain in the evening, several hundred people turned out and stayed until the finish. This circus was quite elaborate in costumes and effects, indicating a good deal of painstaking care on the part of the supervisors and also the children.

On August 30th the closing exercises for the season took place with the children from both parks again taking part together and witnessed by several hundred townspeople including mothers and fathers as well.

The pageant was entitled the "Magic Path" with a visit to Fairyland as its theme. The performance proved a great success with the juvenile artists showing a good deal of talent and careful rehearsing.

The showers were again in operation during the warm weather, 411 boys and girls using them and many grown ups as well.

During the past season the present football field was also used for baseball, while the former baseball field was being brought up to the level of the new fill. It is hoped to complete this work during the present year giving Claremont a separate playing field for both football and baseball which will compare favorably with any in this vicinity.

The other activities have been continued, including the tennis courts, skating rink and toboggan chute, which has been popular with the younger people.

In accordance with the vote of the town meeting the purchase of the area known as Barnes Flat was made, giving the town a recreation ground of about 7 acres on the North side, where it was greatly needed. Some development work is required there, including the laying out of a permanent baseball field, which is in much demand.

It is hoped that these activities as well as a gradual development of both parks may be continued.

REPORT OF LIBRARY TRUSTEES

There has been a gain this year in the circulation of books and magazines for home use of 3000 over that of the previous year.

The usefulness of the library is being appreciated more and more each year.

A card index to the vital statistics of the community covering the period since 1887 has been compiled and is proving itself of great convenience and value.

Many gifts have been received during the past year for the Historical Collection and another room adjoining the present Historical room is being fitted up to take care of these gifts.

The many gifts for the Library as well as for the Historical Room are greatly appreciated.

We have met with a great loss the past year in the death of Mrs. Elizabeth Upham Brooks, one of our Board of Trustees for more than five years.

LIBRARY TRUSTEES,

IRA G. COLBY, *Secretary.*

Chief Engineer's Report

The number of alarms recorded for the year ending January 31, 1928 shows a decided decrease in the number for the previous year. One hundred and seventy-two still alarms and fourteen bell alarms, making a total of one hundred and eighty-six, were received and handled by the fire department in the past year. As has been the case in recent years, a large number of fires of threatening proportions were handled during the past year through still alarms, thus making unnecessary the sounding of a bell alarm. The department has been able to minimize the annual fire loss through the prompt discovery of the fires and through the cooperation of the telephone operators in handling the calls. The bell alarms for the year were as follows:

1927:

Feb. 7—Box 31, 9:55 a. m., Dartmouth Woolen Mill, Lafayette street.

Feb. 26—Box 22, 9:25 a. m., B. E. Brassaw house, 207 Main street.

April 1—Box 8, 5:30 a. m., H. D. Pappas, Bible Hill.

April 9—Box 47, 9:40 p. m. E. Fleury house, Grand View street.

Aug. 24—Box 54, 12:40 a. m., Power House plant, Lafayette street.

Sept. 4—Box 53, 9:40 a. m., Horace Roundy house, Benton avenue.

Sept. 5—Box 15, 9:25 a. m., Esersky Block, 38 Spring street.

Nov. 26—Box 13, 10:50 a. m., Welch & Riley Garage, Tremont street.

Nov. 27—Box 22, 7:55 p. m., Frank Godek barn, Factory

street.

Dec. 16—Box 13, 2:05 a. m., LaChance Restaurant, Bergeron Block, Tremont street.

Dec. 31—Box 29, 6:25 a. m., Leete House, 140 Pleasant street.

1928

Jan. 3—Box 29, 3:50 a. m., Peter Mauroyenis house, Summer street.

Jan. 9—Box 19, 3:25 a. m., Claremont Paper Company, Sullivan street.

Jan. 22—Box 22, 1:05 a. m., Monadnock Block, River street.

The report of all brush and woodland fires will be found under the Forest Fire Warden's report.

HYDRANTS

Three new hydrants have been installed during the past year, all of which tends to aid in the lessening of the annual fire loss and also adds to the efficient service which the department always endeavors to render. The three hydrants were installed on Davis, Washington and Walnut streets.

FIRE ALARM SYSTEM

The system has been in fairly good working order during the past year, but necessary repairs must be made from time to time in order to insure its functioning and with the growth of the town additional boxes should be added to keep the system up to standard.

RECOMMENDATIONS

This year I recommend that the Town thoroughly overhaul Pumper No. 1, as this truck has been in continuous service for

the past 12 years. The pumper with its 300 gallon pump plays an important part in the protection of our town, especially the outlying districts and a general and thorough overhauling would put it in perfect condition for many years of service.

REMARKS

The discipline of the Department has been excellent through the year, the officers and men have been faithful and attentive to their duties, always ready at a moment's warning to respond to the call for active service, and I desire to acknowledge my appreciation for their services rendered. I also extend thanks to the citizens of Claremont, the Police Department and to the fire police for their splendid cooperation throughout the year.

C. E. SEARS, *Chief Engineer.*

FIRE WARDEN'S REPORT

Report of Health Officer

To the Honorable Board of Selectmen:

I herewith submit the annual report of the Health department of the Town of Claremont, covering the activities for the year ending January 31st, 1928.

The past year has been free from any epidemic of contagious disease, with the exception of measles during the early part of the year.

A total of 560 cases of communicable diseases were reported during the year. Prompt reporting of each case of communicable disease, aids greatly in the control of diseases.

The State Law requires that whenever any person, knows, or has reason to believe, that any member of his family or household (boarder, roomer or visitor) has either small-pox, diphtheria, scarlet fever, measles, typhoid fever, or any other malignant communicable disease, he shall within twenty-four hours, if no physician is in attendance, give notice thereof to the board of health, either in person or in writing. An effort is made in each case of communicable disease, so far as possible, to trace the origin of such case, and to maintain an effective quarantine whenever necessary.

The following is a classified list of diseases reported by doctors, nurses and parents:

Name of Disease	No. Cases
Infantile Paralysis	1
Chicken Pox	2
Diphtheria	27
Measles	391
Meningitis	1
Mumps	12

Pneumonia	22
Scarlet Fever	27
Venereal Diseases	41
Tuberculosis	28
Whooping Cough	7
Ophthalmia Neonatorum	1

TUBERCULOSIS

The New Hampshire Tuberculosis Association which was organized for the purpose of the control of this disease throughout the state, is represented in Claremont and Sullivan county by Miss C. M. Gobie, R. N. Miss Gobie is deserving of a great deal of praise for the earnest effort that she has given to the work in Claremont.

Five free clinics were held, under the auspices of the association during the year, with examinations of 294 persons.

The results of these examinations were as follows:

No. of new positive cases, in children	6
No. of new suspicious cases, in children	11
No. of new positive cases, adults	22
No. of new suspicious cases, adults	13
No. of arrested pulmonary cases	4
No. of suspicious cases under supervision	104
No. of positive cases under supervision	180

DIPHTHERIA PREVENTION

There is no one disease, which has attracted wider attention than has diphtheria, nor one which scientific study has been rewarded with greater accomplishment for the control.

For many years diphtheria has taken its toll of victims from children of every class. While it is well to rescue any one from illness by means of a recognized remedy, how much better it is, if measures can be adopted, which will prevent the ac-

quirement of the disease. As regards diphtheria, there is a definite means for its prevention; this is accomplished by means of toxin anti-toxin.

A toxin anti-toxin clinic was held in the town hall, under the direction of the State Board of Health, Div. of Child Welfare, for children of pre school age. At this clinic about forty such children were given the inoculation which protects them against diphtheria.

A large percentage of the children of school age have been given the inoculation under the direction of the medical inspector of schools.

In certain cities, where an intensive campaign of immunization against diphtheria has been carried out, the disease has been completely eradicated. If such effectual results can be attained in one place, there is no reason why like results cannot be attained in any town, or city.

To succeed, however, every proper agency, including the parents, must join in a full cooperation for the public good.

The family, the family physician, the health authorities must work together.

SANITATION

The calls upon this department are increasing in number each year. This work has been given careful attention, by frequent inspections and instructions given whenever necessary to store and restaurant keepers and all handlers of food and food products. In general these stores have been found to be in good condition so far as complying with the pure food laws of the State. A number of fruit stores have been made to understand that display of certain fruits outside the stores, without proper protection from dust and dirt, is an infraction of the State Law.

One case was prosecuted during the past year and a conviction secured against the dealer. The majority of these dealers

have made special effort to comply with the requirements, and are deserving of much credit for the excellent sanitary condition of their places of business

One hundred and sixteen complaints were received from citizens regarding various nuisances. All of these were investigated and in most cases satisfactorily settled with parties concerned. The dumping of rubbish is the most frequent cause of complaint, and is often found to be more the result of carelessness, than anything else on the part of some person.

The depositing of papers, boxes, or any unsightly substance on or near any public street or highway, or any place where such substance is liable to be carried or blown on to such public street or highway, is a violation of the State Law.

The practice of throwing garbage and other rubbish into the Sugar river and on the banks, near the Broad St. bridge should be stopped, as it causes an unsightly appearance in a compact part of the town, besides being unsanitary.

W. P. PRESCOTT, *Health Officer*

Report of Milk Inspector

To Selectmen of the Town of Claremont:

I wish to submit the following report:

As usual all cattle supplying milk or cream to Claremont have been tuberculine tested and only two reactors found. Regular inspections have been made to the dairies and also physical examinations of the cattle. Licenses have been issued and no contagious diseases have been traced directly to milk.

When a case of suspected Infantile Paralysis was reported special inspections were made to the dairies producing milk to this particular family, a list of all that producers customers was sent to the physicians in Claremont so that they would be prepared in case it was carried by milk containers, etc. Notices were put in the papers warning people of the danger of flies and milk producers were warned to keep flies out of the milk rooms and no more cases developed.

Six lots of milk and cream were dumped in the sewer due to dealers not keeping the milk properly protected from flies.

Samples of milk have been sent to the State Laboratory of Hygiene and found to be in good condition.

The milk supplied to schools has been very satisfactory this year.

Special trips have been made to the dairies by a representative of the Harvard Medical School.

Nearly all the milk now sold over the counter in restaurants is put up in one half pint bottles on the farm.

Cooperation has been very good amongst the producers and I wish again to thank them and urge the consumers to notify me of any irregularities

Respectfully yours

L. R. HAUBRICH, V. M. D.

Report of Building Inspector

For year ending Dec. 31, 1927

The year 1927 has been quite favorable in building projects and improvements in Claremont.

Although somewhat less than 1926 it shows a steady growth. Approximately 5000 sq. ft. of floor space has been added to new modern stores; 14,300 sq. ft. to new show rooms and garages combined with a great number of 1 to 12 car private garages; 2000 sq. ft. of building material storage. Among the larger improvements are the remodeling of the J. J. Newberry and Houghton & Simonds stores; new block in lower Main Street; one on Elm Street; remodeling Gellis Block; several improvements in other stores. There has also been a number of substantial improvements in private houses with new porches, etc.

New Houses:	
Single houses	16
Remodeling:	
Single houses enlarged to two tenements	7
Barns to tenements	2
New modern stores	4
New show rooms and garages combined	2
Enlargement of show room and garage	1
Building material storage	1
New modern stores	4
New storerooms and garages combined	2
Increase in number of tenements	25

In accordance with the terms of an agreement executed between the Town of Claremont, and the New Hampshire Forestry Commission, we are submitting a report of White Pine Blister Rust Control work performed in your town during 1927.

Last March, at their annual town meeting, 77 towns and cities appropriated $28,800 for Blister Rust Control, in co-

operation with the State Forestry Department. This was an indication that irrespective of other important public work, white pine growth is considered a valuable local asset and one worth protecting.

Many are the persons who do not realize that today, Blister Rust Control has assumed almost a work of National scope, for 17 states from Maine to California are engaged in destruction of currant and gooseberry bushes, the plants which spread this fatal disease from infected to healthy pine trees.

More than 40 towns and cities in New Hampshire have carried on control measures until their pine areas have been covered the first time over. Many other communities are also working with this goal in view.

It is hoped that an appropriation of the same amount as that of last year will be made available to carry on the work during the coming year.
